“Guidelines for Operating Seed Balance Management System”

Guideline for Consumer

If you are consumer and willing to demand the seed required for you or your company / organization / farmer’s group. You can simply click the consumer registration.

The registration form is as below:

The screenshot shows the website for the Seed Quality Control Centre (SQCC), National Seed Balance Sheet. The page has a green header with the organization's name and logo. Below the header is a navigation menu with "Home", "Suppliers", and "Contact" links. The main content area is titled "Consumer Registration Application Form". It contains several input fields and dropdown menus for registration details. The fields include: Organization (text input), District (dropdown menu with "- None -" selected), Head of Organization (text input), Organization type (radio buttons for Company, Cooperatives, Firm, Group), Contact Number (Head) (text input), Organization ownership (radio buttons for Government, Individual, Public, Semi Government), Contact number (Office) (text input), Contact Person (Name) (text input), Contact Person Mobile (text input), Total Seed Production Area (Hectare) (text input), and Total Annual Seed Production (Metric Ton) (text input). A "Submit Application" button is located at the bottom of the form. The footer of the page reads "Premium Drupal Theme by Adaptivethemes.com".

Once you get the registration. SQCC Manager will go thoroughly to your application and will provide you user id and password after the verification.

With the user id and password, you can login.

Here is the example of ssscompany who is login as consumer.

After login, you can make your order and manage your seed demanded.

Seed Balance Management System

This Software is developed for Seed Quality Control Centre (SQCC) in order to manage the seed demanded and seed supplied from various institutions and related organization.

How It Works?

The list of Seed suppliers along with their organization detail will be made publically available. All the authorized seed suppliers will get User Id and Password via the Email.

Those who are willing to get seed from related organization can simply fill up the form "Consumer Registration". The registered consumer will be managed by the SQCC manager. Only the approved consumer will get the user id and password. The consumer who received user id can login and make online demand. The demanded seed will be managed by SQCC manager and the manager have authority to accept / reject / pending the seed demanded and only approved consumer will be assigned to the Supplier. The supplier can get the notification about the seed demanded and can make the availability of seed to the consumer. The manager of SQCC will get all the reports about seed management from different stakeholders.
